Ikram Bouizdouzen

Full-stack developer in training

Antwerp, Belgium | Born 2004-11-06 | ikrambz@outlook.com
github.com/IkramBz | linkedin.com/in/ikrambouizdouzen

PROFILE

Programming student at Thomas More who builds things that just work, frontend and backend included. Currently interning at Bookbetter. I plan realistically, hit my deadlines and work well with people.

EXPERIENCE

Sep 2026 - present	**Intern - Bookbetter** Building features with Django and React, working in Jira and tracking product usage with PostHog.
Sep 2025 - present	**Logiscool Coach** Teaching programming lessons to children.
Apr 2025 - present	**Camp Coach - Beweeghelden** Giving children voice and creative sessions, encouraging them in an educational way.
Feb 2024 - Jul 2024	**Student Job Customer Service - Engie** Answering phone calls, drawing up contracts, giving information on energy prices, arranging moves, Moves, Sales & Callback.
Mar 2022 - Apr 2022	**Internship Agfa Gevaert - Mortsel** Installing and configuring PCs, checking switches, installing and launching a server, replacing and upgrading hardware components.

EDUCATION

Sep 2026 - present	**Legal Practice - AP University of Applied Sciences** Studying alongside programming, with the aim of specialising in business law.
Sep 2025 - present	**Programming - Thomas More** Programming studies with a focus on full-stack development.

PROJECTS

Camp planning (React, Firebase)
Platform where volunteers submit their availability and administrators build a schedule. Around 180 users, used daily. Private application.
